NOTIFICATION

This notification is in response to applicants' submission filed 18 January 2002 in response to the Notification dated 18 December 2001. The submission was accompanied by four declarations of inventors.

BACKGROUND

On 18 August 1999, applicants filed international application PCT/US99/18738, which claimed a priority date of 18 August 1998. A copy of the international application was communicated to the United States Patent and Trademark Office (USPTO) from the International Bureau on 02 March 2000. A Demand for international preliminary examination, in which the United States was elected, was filed on 17 March 2000, within nineteen months from the priority date. Accordingly, the thirty-month period for paying the basic national fee in the United States expired at midnight on 20 February 2001 (18 February 2001 being a Sunday and 19 February 2001 being a legal public holiday).

On 16 February 2001, applicants filed a submission for entry into the national stage in the United States which was accompanied by, *inter alia*, a first declaration of inventors identifying Harvey Levine and Lawrence Levine as the inventors and a second declaration of inventors identifying Christopher Mears and Richard F. Gray as inventors.

On 15 March 2001, the USPTO mailed a NOTIFICATION OF MISSING REQUIREMENTS UNDER 35 U.S.C. 371 (Form PCT/DO/EO/905) indicating, *inter alia*, that the oath or declaration submitted on 16 February 2001 was defective because the inventors were not identified.

On 15 June 2001, applicants submitted a response to the NOTIFICATION OF MISSING REQUIREMENTS UNDER 35 U.S.C. 371. The response was accompanied by, *inter alia*, copies of two NOTIFICATION OF THE RECORDING OF A CHANGE (Form PCT/IB/306) from the International Bureau, a first page of a declaration identifying Christopher Mears and Richard Gray as inventors and signed by Christopher Mears, another first page of a declaration identifying Christopher Mears and Richard Gray as inventors and signed by Richard Gray, and a second page of a declaration identifying Ralf Zissel, Harvey Levine, and Lawrence Levine as inventors and signed by Ralf Zissel.

On 03 July 2001, the USPTO mailed a NOTIFICATION OF A DEFECTIVE RESPONSE indicating that the response filed by applicants on 15 June 2001 did not complete the requirements set forth in the NOTIFICATION OF MISSING REQUIREMENTS mailed 15 March 2001.

On 20 July 2001, applicants submitted a "RESPONSE TO NOTIFICATION OF A DEFECTIVE RESPONSE" indicating that a supplemental response had been filed on 02 July 2001. The submission filed 20 July 2001 also included a second page of a Declaration signed by Harvey Levine and Lawrence Levine.

On 18 December 2001, the USPTO mailed a NOTIFICATION requiring an oath or declaration in compliance with 37 CFR 1.497(a)-(b) within a one-month extendable time period. The Notification indicated that each executed declaration must identify all of the inventors and each submitted declaration must be complete, even if executed by only one of the inventors. The Notification also indicated that the declaration signed by Mr. Zissel contained non-initialed and non-dated alterations and that the difference in the names of the inventor in the published international application (Ralph Zissel in the published international application) and the declaration signed by a Mr. Zissel (Ralf Zissel) must be explained.

On 18 January 2002, applicants submitted the instant submission which was accompanied by, *inter alia*, four declarations of inventors.

DISCUSSION

The declarations signed by Harvey Levine and Lawrence Levine and the declaration signed by Ralf Zissel are improper. In each of these declarations, page 1 appears to be an original sheet while page 2 appears to have been transmitted by facsimile. This suggests that the first page of the declaration was not associated with the second page at the time of execution, thus rendering the execution improper. The submission filed 18 January 2002 acknowledges that "some of the inventors returned signed copies by facsimile transmission that included only the page with the individual's signature, although the entire declaration is included herewith." However, the submission goes on to state that "Undersigned counsel represents that each and every inventor was in possession of and executed a complete copy of the declaration."

Nevertheless, a complete declaration which has been presented to and signed by the relevant inventors must be provided. A copy of the signature page with copies of other pages of the declaration taken from a different copy attached to the signature page is not sufficient.

The difference in the names of the inventor in the published international application (Ralph Zissel in the published international application) and the declaration signed by Mr. Zissel (Ralf Zissel) has been adequately explained.

CONCLUSION

Any further correspondence with respect to this matter should be addressed to the Assistant Commissioner for Patents, Box PCT, Washington, D.C. 20231, with the contents of this letter marked to the attention of the Office of PCT Legal Administration.

Since the reply filed 20 July 2001 appears to have been bona fide, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to provide an oath or declaration in compliance with 37 CFR 1.497(a)-(b). Extensions of this time period may be granted under 37 CFR 1.136(a). Failure to timely file a proper reply will result in abandonment of the application.
